## **5. MAKING A STABLECOIN PAYOUT**

**1. Sending a Stablecoin Payout.** You can use your Remitly Account to send Supported Stablecoin to another digital asset wallet you control or to someone you know, such as a friend or family member. You will need to:

6. Select the amount and the Supported Stablecoin you would like to transfer;

7. Select the blockchain of the recipient's wallet;

8. Provide the wallet address where you want to transfer the Supported Stablecoin – You will need to use the correct destination wallet address for the type of Supported Stablecoin being sent. There are different wallet addresses for each type of Supported Stablecoin. For example, if you are sending USDC, you must (1) select the USDC Supported Blockchain that you wish to utilize and (2) use a destination wallet address designated for that USDC Supported Blockchain;

9. Provide information about yourself and your recipient; and

10. Carefully verify that you have provided the correct destination wallet information to us prior to submitting your external transfer.

**PROVIDING THE INCORRECT RECIPIENT INFORMATION (FOR EXAMPLE, DESTINATION WALLET ADDRESS, NAME, OR USERNAME) WILL RESULT IN YOUR TRANSACTION NOT BEING DELIVERED TO YOUR INTENDED RECIPIENT AND BEING IRRETRIEVABLY LOST. YOU ARE SOLELY RESPONSIBLE FOR PROVIDING CORRECT TRANSACTION DETAILS, INCLUDING RECIPIENT INFORMATION, TO US. WE ARE NOT RESPONSIBLE OR LIABLE FOR ANY LOSSES YOU MAY INCUR AS A RESULT OF YOU PROVIDING INCORRECT TRANSACTION DETAILS.**

**2. Once you initiate your transfer and agree to our Crypto Services Partner(s) terms and conditions, Remitly will process your funds and transfer the fiat currency to our Crypto Services Partner.**

3. Once you submit your transfer, the transfer will remain unconfirmed and pending until the cryptocurrency network confirms the transfer. Even when a transfer is unconfirmed and pending, the transfer is irreversible. Remitly and our Crypto Services Partner(s) do not own or control the cryptocurrency networks, and we make no guarantee that the transfer will be confirmed by the network. At the time your

transaction is reflected as “confirmed” by our Crypto Services Partner, your recipient’s wallet provider may still require additional confirmations by the cryptocurrency network before reflecting the transfer.

**4. Transaction Limits.** From time to time, we may, in our discretion, impose limits on the amount of Supported Stablecoin you can send which may include limits on the cash value or number of transactions in which you can engage over particular periods of time. We may change these limits for safety, security or other lawful reasons. You can view your current limits on your Remitly App.

**6. Fees.** You may be charged a stablecoin payout fee when you send a stablecoin payout. View the current fee on your Remitly App.

**7. You are responsible for Service Provider fees.** Our Crypto Services Provider(s) will not charge you additional fees. However, your financial institution or your recipient’s crypto custodian may charge you or your recipient additional fees when you use the Stablecoin Payout Services. For example, some credit card issuers may charge you additional fees and interest because they treat using your credit card for some of the Stablecoin Payout Services as a “cash advance”. Other fees for which we are not responsible include third-party fees, such as charges imposed by your financial institution or bank for overdraft, non-sufficient funds, or ATM withdrawals. You are solely responsible for all fees charged by your financial institution or your recipient’s crypto custodian in connection with your use of the Stablecoin Payout Services.

Please tell us as soon as you can, if you think your account statement or receipt is wrong or if you need more information about a transfer listed on the account statement or receipt. **30.** Tell us your name and account number (if any).

**31.** Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.

We will determine whether an error occurred within 10 Business Days after we hear from you and will correct any error promptly. If we need more time, however, we may take up to 45 days to investigate your complaint or question. If we decide to do this, we will give what is known as provisional credit to your account within 10 Business Days for the amount you think is in error. You will be able to use this money during the time it takes us to complete our investigation. If we ask you to put your complaint or question in writing and we do not receive it within 10 Business Days, we may not credit your Wallet Account.

For errors involving new accounts, point-of-sale transactions, or foreign-initiated transactions, we may take up to 90 days to investigate your complaint or question. For new accounts, instead of 10 Business Days, we may take up to 20 Business Days to credit your account for the amount you think is in error.
